EDUCATION & TRAINING

Social Enterprise Greenhouse

Graduate of the 2016 Impact Accelerator Program, a 12-week blended learning platform that provides social entrepreneurs with the knowledge, networks and resources they need to accelerate the growth of their enterprises.

Vassar College '10

Bachelor's of Arts in Women's Studies
GPA: 3.4/4.0

EXPERIENCE

General Assembly Web Development Immersive

- Completed a 13-week, 500+ hour immersive program.
- Learned about team workflows and version control in Git.
- Created 4 full-stack, single-page web applications:

Monument
An educational quiz smartphone app, written in ReactJS, styled with Material UI. Back end with Rails and SQL tables.

Funventory
A team project using MongoDB, Express, JavaScript and HandlbarsJS to build a product inventory management system.

Sweet Pea Farm Website
Uses SQL tables to store data between the farm and its customers. Front end written with JavaScript, HandlebarsJS and jQuery. Back end API written in Rails. Design enhanced by Bulma.

Tic-Tac-Toe Game
A game written in JavaScript and jQuery, using a pre-existing API to log in users to play and record game history.

Canvasser & Volunteer Coordinator   2016-2017
For Rhode Island Earned Sick Days bill and Marcia Ranglin-Vassell for State Representative

Co-owner and Manager   2015-2016
For Sol Chariots Pedicab Cooperative, a bicycle-based company offering delivery and special events service.

Bicycle Mechanics Educator   2015-2016
For Recycle-A-Bike, a community bike shop that specializes in recycling used bicycles and bicycle mechanics education.
